

CloudDesk Technologies IT Support FAQ

Account & Access Issues

How do I reset my password?

1. Visit the Employee Self-Service Portal.
2. Select “Forgot Password.”
3. Complete Multi-Factor Authentication.
4. Create a new password.

Password changes take effect immediately.

My account is locked. What should I do?

Accounts are automatically locked after five unsuccessful login attempts.

Employees should:

1. Wait 15 minutes and try again.
2. Use the password reset option.
3. Contact IT Support if the issue continues.

How do I request software access?

Submit a Software Access Request through the Support Portal.

Required information:

- Employee ID
- Requested software
- Business justification
- Manager approval

How long does software approval take?

Standard requests are processed within 2 business days.

Requests involving licensed software may take up to 5 business days.

CloudDesk Technologies IT Support FAQ

Device Support

What should I do if my laptop is lost?

Employees must report lost devices within 1 hour of discovery.

The Security Team will:

- Disable access
- Revoke active sessions
- Initiate device tracking procedures

VPN Troubleshooting

If VPN access fails:

1. Verify internet connectivity.
2. Restart the VPN application.
3. Re-authenticate using MFA.
4. Reboot the device.

If the issue persists, contact IT Support.

How often are laptops replaced?

CloudDesk follows a standard device lifecycle.

Laptop replacement schedule:

- Standard employee laptops: Every 4 years
- Developer workstations: Every 3 years

Where can I find technical documentation?

Technical documentation is available through the Internal Knowledge Portal.

Available resources include:

- Software guides
- Security procedures
- API documentation
- Troubleshooting articles
